## Experience

### Eli Dweck Designs (November 2023 - Present)

- Collaborate closely with architects, contractors, vendors, and clients to bring a range residential and commercial projects to life.
- Design custom pieces ranging from seating and case goods to large scale millwork.
- Develop detailed technical drawings, 3D models, and renderings to communicate design intent and ensure accuracy in execution.
- Coordinate with fabricators and manufacturers to refine production methods, troubleshoot challenges, and maintain high-quality craftsmanship.
- Provide design consulting on various project stages including space planning, material selection, and finish details, resulting in a thoughtful and functional design tailored to each client's vision and needs.
- Oversee projects with work ranging from façade design to space planning and final finishes, covering spaces between 6,000 and 12,000 square feet.
- Manage a portfolio of up to eight projects simultaneously across multiple states, ensuring seamless coordination and execution.

### West Elm (October 2022 - November 2023)

- Conducted in-home and virtual consultations to assess client needs, creating design presentations with floor plans and vision boards.
- Guided clients in selecting furniture, rugs, bedding, and décor, delivering exceptional customer service aligned with West Elm standards.
- Built lasting relationships with trade clients and developers, securing recurring orders and completing advanced B2B training.
- Researched design trends, analyzed market competition, and supported showroom staging and styling.
